

Why is MFG the secondary school for your girl?

Find out at our information sessions for families on 14 & 15 March 2018.

A proud history.

MFG is a girls' State School – one of only eight in Victoria – with a proud history of producing thriving, confident, world-ready, comprehensively educated young adults.

Our girls have gone on to preside in prestigious courts of law, world leading research teams, artistic, literary and musical pursuits, excel as scientists, social workers, community leaders and more.

No matter your measure of success, MFG graduates achieve great life outcomes.

MFG invites you.

During March we are offering three opportunities for you to discover Matthew Flinders Girls Secondary College, so you can see for yourself why we are the right match for your daughter's secondary education.

See our March information session details overleaf.

Outstanding programs. Diverse experiences. Amazing opportunities.

Your girl will find her place in the world through a range of programs and experiences across a range of disciplines:

- A House and Home Group structure that runs through the entirety the school and your daughter's MFG years;
- Our integrated social, sports, music, performance, outdoor and science programs, and
- a variety of leadership, community and development opportunities that cater to every girl's interest.

There's more to gain than just an education at MFG.
